[twptrash@southamptontwp.com](mailto:twptrash@southamptontwp.com)

#### Zoning Officer

Larry Hinkle  
717-532-9646 Ext. 103  
[zoning@southamptontwp.com](mailto:zoning@southamptontwp.com)

#### Board of Supervisors Meetings

2nd Monday of each month at 8 am. and the 4th Monday of each month at 6 pm. at the Township Office.

### Township

Poison hemlock is that invasive and dangerous plant is blooming in Pennsylvania. This is poisonous to humans and livestock. If you have this on your property please remove it. Trilby Libhart, the state's botany, and weed specialist, said the plant spreads easily. The Tree of Heaven is an aggressive root system that can cause damage to pavement, sewers and building foundations. The plant has also helped advance the spread of the spotted lanternfly. If you have either of these on you property it would be best to remove them.

### Affordable Connectivity Program (ACP)

ACP is a Federal program which helps qualifying low income households pay for internet service. To see if you qualify go to [www.xfinity.com/acp](http://www.xfinity.com/acp), [www.internetessentials.com](http://www.internetessentials.com) or call 844-389-4681

### Mosquitoes

If you are having a problem

with mosquitoes contact vector control at (717) 240-6349 or [www.ccpa.net/vector](http://www.ccpa.net/vector).

### Spotted Lanternfly

Spotted lanternflies are invasive and can be spread long distances by people who move infested material or items containing egg masses. If allowed to spread in the United States, this pest **could seriously impact the country's grape, orchard, and logging industries**. If you have further concerns contact the Penn State Extension Office at (888) 422-3359 or go to [www.ccpa.net](http://www.ccpa.net).

### Smoking/ Home Fire Safety

Be Alert! To prevent a deadly cigarette fire, you must be alert. You won't be alert if you are sleepy, have taken medicine, or drugs that make you drowsy or have consumed alcohol. **NEVER SMOKE IN BED.**

Facts: 1) The risk of dying in a home structure fire caused by smoking materials rises with age. 2) One out of four fatal victims of smoking-material fires is not the

smoker whose cigarette started the fire.

### Smoking Safety

\*Only use fire-safe cigarettes. \*Smoke outside, most deaths result from fires that started in the living rooms, family rooms, and dens or in bedrooms. \*Keep cigarettes, lighters, matches, and other smoking materials up high out of the reach of children, in a locked cabinet. \*Use a deep, sturdy ashtray. Place it away from anything that can burn. \*Don't discard cigarettes in vegetation such as mulch, potted plants or landscaping, peat moss, dried grasses, leaves, or other things that could ignite easily. \*Before you throw away butts and ashes, make sure they are out, and dousing in water or sand is the best way to do that. Information provided by the NFPA (National Fire Protection Association) [www.nfpa.org/education](http://www.nfpa.org/education)

### BULK TRASH

September 23rd, 7:00-2:45
